Product Description

5.5L White Pre-Filter Air Purifier Rotary Dehumidifier

To use a rotary dehumidifier, simply plug it into a standard electrical outlet and set the desired humidity level. It should be placed in the center of the room for even air distribution. Regular maintenance involves emptying the water collection tank when it's full and cleaning or replacing filters as recommended by the manufacturer.

A rotary dehumidifier is an excellent investment for those looking to improve indoor air quality and combat the problems associated with high humidity. With its efficient rotary compressor, user-friendly controls, and various beneficial features, it offers a reliable solution to maintain a comfortable and dry living space.

Product Specification

Model	DS5
Rated Power	750W
Dehumidification	7.1L/day \pm 20% (80%RH 30°C)
Water Tank	5.5L
Coverage Area	\leq 45 m ²
Product size	395*233*531mm

Product Features:

- Evaporative Condensation Technology, no compressor and no Freon
- Clothes drying in all seasons
- With washable pre-filter to purify air
- 2,4,8 hours timer setting
- LED ambient humidity display
- An external continuous drain
- Auto-off and LED indicator when full
